

The FFT Bumper Pull Flatdeck Full Tilt Trailer Horizon is a reliable and versatile solution for transporting heavy equipment, combining strength and functionality. Built on a rugged 12" I-Beam frame with tandem Lippert axles (7K-10K) and GVWR ratings up to 21,000 lbs, it's designed for consistent performance under demanding conditions. A hydraulic tilt system with a wireless remote makes loading and unloading more efficient, while standard features like a powder-coated finish, LED lighting, deep cycle batteries, and a diamond mesh toolbox contribute to its lasting durability. The FFT is built for dependable, everyday use in a variety of work environments.
